

An illustration of a classroom scene. On the left, two bees are on a honeycomb. In the center, a large green speech bubble contains the word 'NOVITÀ'. To the right, a snail is being illuminated by a spotlight. In the background, a chalkboard shows mathematical formulas: $\frac{672 - 122}{16}$, $\int_a^b ax$, $\sqrt{\quad}$, $59x - 5$, and $(x-2)^2 - (y-3)^2 - 144$. In the foreground, a student with a backpack and a teacher are looking towards the chalkboard.
